---

Even if you are now a happy Mac user, it doesn't mean that it will be in a good shape forever.. Every activity that is done with the use of your computer contributes to its overall condition somehow.

If you are not able to do it manually, it will be a nice idea to use disc cleaner for mac such as MacCleanerTool and clean mac disc automatically day by day.

## **disk cleanup**

disk cleanup, disk cleanup windows 10, disk cleanup mac, disk cleanup windows 7, disk cleanup command, disk cleanup software, disk cleanup windows 8, disk cleanup server 2012, disk cleanup temporary files, disk cleanup definition, disk cleanup meaning

One of the reasons why the productivity of your Mac is constantly decreasing is gigabytes of disk space that is cluttered with duplicate files, media leftovers, broken application data, and system caches.. So, it is very important to free up more space if you want your Mac to be secure, efficient and fast.

## **disk cleanup mac**

## **disk cleanup command**
